**Attachments:** Chloropren Kick-off Meeting - Charge Questions.v3.pptx; Chloroprene Peer Review Kick-Off Overview of Components.rev.pptx

Tracey,

I'm not sure if I'll present from my computer, but just in case, attached are my overview slides and a revised set with the charge questions, and two additional slides. (Look to see if there are new slides 2 and 4.)

-Paul

I will be happy to address questions, but since it's Versar's job to manage the review I think it would be better for Versar to show and  
read the charge.

-Paul

**Subject:** RE: PBPK Modeling for Chloroprene; Update: Slide Deck for Teleconference

Hi Tracey – One other thing: our management was discussing if it is possible to have Versar (or Ken) walk through the charge questions with clarifications from Paul and others as we go through it.

I realized I deleted the “charge review” from the agenda, so if we have to add it back we can.

Let us know.

Thanks!

**Subject:** RE: PBPK Modeling for Chloroprene; Comments on Interim List of Candidates

OK thanks Tracey. I've attached a final version Word version of the peer reviewers. Let me know if this looks ok to you. As soon as you have a final meeting date identified and the registration info, we can post this information and the meeting date. We'll also send out a listserv notice about this as well.

I believe in the FR we said this would happen no later than 30 days before the public meeting.

Hi Tracey – Two more comments came in late this evening. Based on my quick read, I don't see any direct comments on the proposed reviewers. The Louisiana Chemical Association does have a general paragraph on page 9 of their comment on the peer review.

Thanks!

Dahnish

Hi Tracey – You have our support to proceed as outlined below. Will you let us know when you have picked the meeting date officially? We will likely update the website with meeting registration information and the meeting date (see below). We'll also send out a listserv announcement.

Lastly, Denka/Ramboll just submitted to their comments into the docket. See attached file. Again, a quick look seems to indicate Denka/Ramboll doesn't have any comments on the actual peer review candidates.

Thanks Tracey! I'm checking with management. I'll respond this afternoon.

Just FYI, we got one more comment from the community group in Louisiana. The comment hasn't been posted publicly yet, but I grabbed it from the internal website. I did a quick read and did not see anything that impacts the candidate peer reviewers.

Hi Tracey – Your timeline also seems appropriate. Dustin did bring to our attention that Monday, October 12 is a Federal holiday (Columbus Day), so we should avoid this date for the public meeting and if at all possible Friday, October 9. As soon as you have identified a specific date(s), I can hold the time for all the EPA folks.

As for the teleconference, how long are we envisioning the meeting going? I can attempt to hold some time on people's calendars now for early September.

Lastly, I'm attaching the one comment we've received so far. It should hopefully show up on Regulations.Gov later today.

Hi Dahnish,

All is well and thanks for checking in. So far we have not received any comments on the interim list of candidates. I did receive one telephone call from an individual inquiring about attending the public meeting, but he did not provide any comments. I think your assumption that people will wait to submit comments toward the end of the comment period is correct.

Thanks,

Tracey

Hi Dahnish,

We have already started to inquire about the candidates availability for September & October based on the FRN likely being published around 7/24. So far four candidates have responded and they are still available for that timeframe.

Thanks,

Tracey

**Subject:** RE: PBPK Modeling for Chloroprene

Hi Tracey/all – Just wanted to provide an update, there was another round of back and forth with Denka on the documents for the peer review. This has unfortunately slowed us down again. There is a check-in meeting on Monday with senior management ORD on Monday. I'm hoping for a better sense of when I can push the FRN forward for posting by then.

Besides the schedule, are there any other implications to consider with the delayed release? Do we need to circle back with the candidates before posting the FRN? Just wanted to check.

Thanks!

Hi Dahnish,

Thanks for the update and we're keeping an eye out for the FR. We'll be waiting for comments on the candidate reviewers and will likely look to select the final nine reviewers around the end of July, at which time we will get the premeeting review underway. Based on availability information from the candidates, we're still looking at mid-late September for a meeting and we have a couple of windows of opportunity for the two-day meeting.

**Subject:** RE: Update: PBPK Modeling for Chloroprene

Hi Tracey – Just an FYI, I submitted the FRN for review by EPA's Office of Policy. I expect comments back by no later than tomorrow. If all goes well, the FRN should publish by middle of next week (Wednesday is my best guess).

Let me know how this impacts our timeline.

Hi Dahnish and Paul,

Just checking in to see if you had any information on when the FRN will be published? I updated the pool of candidates this morning to inform them that their name, affiliation, and expertise would be published (date to be determined) and that we still anticipate beginning the review in early July, with a meeting to be scheduled for mid-late August. Also I didn't see a statement in the draft FRN on how long the comment period is for the list of candidates. Are we still considering 14 days?

Hope all is well,

Thanks!

Tracey

**Subject:** RE: Chloroprene Peer Review - Meeting to Discuss FRN & Timeline

Hi Tracey – I know you all are still reviewing the FRN, but I just wanted to give you a heads up that I moved the “start date” to July 8 in the FRN. This is a safer date for us given that clearance is taking longer than expected for most of our materials right now.

**Subject:** RE: Chloroprene Peer Review - Meeting to Discuss FRN & Timeline

Thanks Dahnish, we will look at these revised versions of the chloroprene FRN and the LoC documents and get back to you soon.

Tracey

**Subject:** RE: Chloroprene Peer Review - Meeting to Discuss FRN & Timeline

Hi David/Tracey/Laura – Thank you all for a productive meeting this morning. I've attached slightly revised versions of the chloroprene FRN and the LoC documents based on the conversation we had earlier today. I did add the list of names of the experts and their abbreviated expertise. We will likely need to triple check the names and expertise. Let me know how this looks and if you have any comments on this version.
